600 Series(MT) Ordering Questions

Vehicle Information?

Model Year _____ Make _____ VIN # | | | | | | | | | | | | | | | | |

Serial #_____ Part # _____ Engine Make _____

Engine Governed RPM _____ # of Forward Gears _____

What type of external speedo gear?

(Speedometer is electrical or mechanical? If electrical, does it have a gear or speed sensor?)

- ☐ Mechanical -13, 14, 15, 17, 18, 19 Tooth
- ☐ Electrical Gear- 15 Tooth
- ☐ Electrical Mag Sensor

What is the oil pan depth?

☐ 4.34 inches ☐ 5.1 inches

What style cover does the torque converter have?

☐ 6- Threaded Studs
(Nuts are used to attach flex plate)

☐ 12- Threaded Bolt Holes
(Bolts are used to attach flex plate)

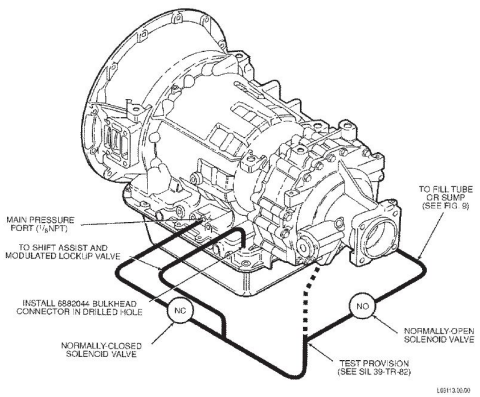
Does this transmission operate a PTO (power take off)?

☐ No ☐ Yes

If yes:

☐ PTO is mounted to the right-hand side of the transmission? If yes, this is a STANDARD PTO MOUNT, and MUST have a PTO gear inside the transmission to operate PTO.

☐ PTO is being operated off of a transfer case that is mounted to the truck chassis and is powered from the output shaft of the transmission? If yes, this is a SPLIT-SHAFT PTO. See examples below



Split shaft PTOs are most common in fuel trucks, fire trucks, sewer cleaners, or mobile drilling equipment.
